Dear Congressman

On behalf of Eagle Forum and the thousands of families we represent throughout the country, we urge you to **sign onto the discharge petition (H.Res. 102) that brings the *Born-Alive Abortion Survivors Protection Act* (H.R. 962)**. This is a necessary bill that will require medical professionals to perform life-saving measures, including transportation to a hospital, to save a baby that has been born alive during an abortion procedure. It also gives the woman a right of action in these circumstances.

In light of recent comments by lawmakers and legislation that has moved in various states, the time is now to protect our most vulnerable population. Not only does this bill have strong support among Americans, but it has overwhelming bipartisan support. 77% of Americans [polled](#) support protections for abortion survivors and 62% are against late-term abortion. 70% of Democrats, 86% of Republicans, and 75% of independents support this legislation. This is a common sense bill that the American people want to pass.

For these reasons, we urge you to **sign onto H.Res. 102, the discharge petition to bring the *Born-Alive Abortion Survivors Protection Act* (H.R. 962) to a vote. Eagle Forum will score the signatures to this bill.**

Please direct any questions to me by email at tabitha@eagleforum.org or by phone at 202-341-5737.

In strength,

Tabitha Walter
Executive Director
